

Rubber damper

Product code: HB.FB.bumper

£ 2.75 excl. VAT
(£ 3.30 incl. VAT)

These dampers are at the end of the rods between the playing figures and the sidewall of the frame. The holes of the dampers measure 15mm and therefore will fit very tight around the rod of 16mm.

We have chosen rubber instead of steel springs, because our tables are intended for the outside. Rubber is much more resistant to all different weather conditions and in addition to that a game with HeBlad table football makes less noise through the use of rubber.

This product can be ordered as a complete set of 16 pieces, very handy if you want change all rubbers of the table.

Note: In order to slide the dampers over the rods, the players have to be removed first, to do this you need a hex key of 2.5 mm, which you can order on our site as well.
